Open Sort

- **Step 1:** Group these items into **5 to 7 main categories**.
- **Step 2:** Name these categories (e.g., "Programs," "About," "Facilities").

Tips

- **Identify "Orphans":** If a category has only one item, find a better home for it. Large navigation menus should be balanced.
- **The "3-Click Rule":** A user should ideally find any of these 30 items within 3 clicks of the homepage.
- **Use a "Utility Nav":** This category contains the "boring," but necessary stuff (Privacy Policy, Contact).
